**REQUEST FOR CERTIFICATE OF CORRECTION-OFFICE ERROR**

Arizant Healthcare Inc., the owner by assignment of the above-identified patent of the referenced patent, hereby requests that a Certificate of Correction be issued to correct the error by the Office identified on the accompanying CERTIFICATE OF CORRECTION.

**REMARKS**

This change is requested in order to rectify an error arising from the omission of a reference to U.S. Patent 5,716,271 ("the '271 patent") in field (56) of U.S. Patent 7,220,273 ("the '273 patent"). The error results from the failure to list the '271 patent on FORM PTO 892 attached to the Office Action dated 02/07/2006. The omission is manifestly in error because of the examiner's explicit reliance on the '271 patent in examination of the claims of the '273 patent.

The first citation of the '271 patent in the file of the '273 patent is by the examiner in the Office Action dated 02/07/2006, where claims 101, 105, 107, and 111 are rejected for obviousness over U.S. Patent 3,565,099 in view of the '271 patent. It is clear that the examiner's reference to the '271 patent is intentional because the

discussion of the obviousness rejection includes explicit references to identifiable elements in Figure 1 of the '271 patent. See page 4 of the Detailed Action. The examiner further identifies the '271 patent by explicit reference to the last name ("Paidosh") of the inventor of the '271 on pages 4 and 5 of the '271 patent.

The '271 patent is further cited and discussed in the Office Action dated 08/04/2006. See, for example, the discussion by the examiner spanning pages 3 and 4 of the Detailed Action.

The failure by the examiner to list the '271 patent in the prescribed fashion, that is, by use of FORM PTO 892, resulted in the omission of the reference from the '273 patent.<sup>1</sup> Accordingly, the mistake was on the part of the Office and should not require payment of a fee by the patentee.

I am empowered to act on behalf of Arizant Healthcare Inc. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the above-identified patent.

Respectfully submitted,

John P. Rock  
Senior Director of Legal Affairs  
Arizant Healthcare Inc.

<sup>1</sup>In fact the error may have occurred because of the transposition of the fifth and sixth digits of 5,716,271 in the PTO 892 attached to the Office Action dated 02/07/2006, which would yield the patent number 5,716, 721, as per Reference 1 in the form. However, the patentee has no way of confirming that the error occurred in this manner.
